TECHNICAL MEMORANDUM

Utah Coal Regulatory Program

November 26, 2012

TO: Internal File

THRU: April Abate, Team Lead *AGA 12-20-2012*

FROM: Suzanne Steab, Engineering Technician II *SS*

RE: Midterm Review Completion Response, Wellington Prep Plant, NEICO, C/007/0012, Task ID #4207

SUMMARY:

On March 13, 2012, the Division commenced the midterm permit review for the Wellington Prep Plant. The midterm permit review was completed on May 30, 2012. There were several responses deficiencies addressed in the completion of the review. These deficiency responses were received from Mt. Nebo Scientific, Inc. on November 20, 2012.

The Permittee submitted updated Ownership and Control information as requested upon completion of the midterm permit review. This memo will address the Ownership and Control information submitted.

TECHNICAL MEMO

TECHNICAL ANALYSIS:

GENERAL CONTENTS

Regulatory Reference: R645-301-100

Analysis:

R645-301-112.330. The Information in the current MRP did not match the information found in the OSM/AVS database. The Operator was requested to submit updated Ownership reflecting the correct information.

The Operator submitted updated Ownership information. This information was reviewed and forwarded on November 26, 2012 to the OSM/AVS for updating in the AVS System.

Findings:

The information provided meets the requirements of the Utah Coal Rules.

RECOMMENDATIONS:

The application is recommended for approval.
